

## PERFIN CS/L/SA (C7140.04) used on G.B. and CANADIAN STAMPS

By JON JOHNSON

Canada used to charge a customs duty on both goods and advertising material coming into the country. Special arrangements were made in Britain for firms sending advertising material, to buy Canadian Custom stamps in the U.K.

They were allowed to affix the stamps to the package in the U.K. to pay the customs duty and no doubt from force of habit the Civil Service Supply Association perfined their Canadian Custom stamps.
